

HOIN JUNG

Purdue University, West Lafayette, IN, USA

jung414@purdue.edu | 765)532-2263 | linkedin.com/in/hoinjung

EDUCATION

- Purdue University** **West Lafayette, IN, USA**
Ph.D. in Electrical and Computer Engineering Jan. 2023 – Expected May. 2027
· Dissertation: Efficient Surgical Interventions for Trustworthy Multimodal Machine Learning Systems
- Seoul National University** **Seoul, Korea**
M.S. in Computational Science and Technology Sep. 2020 – Aug. 2022
· Thesis: Local-Ensemble Graph Collaborative Filtering with Spectral Co-Clustering
- Korea Aerospace University** **Goyang, Korea**
B.E. in Aerospace & Mechanical Engineering Mar. 2010 – Feb. 2014
· Major of Aircraft System Engineering

RESEARCH INTERESTS

Trustworthy & Efficient Multimodal Systems

Research Context

- Primary Domain: Trustworthy AI, Multimodal Systems, Retrieval-Augmented Generation (RAG)
- Key Problems: Factual Grounding, Fairness & Debiasing, Hallucination, Bias & Recorruption

Research Methodology

- Core Philosophy: Efficient Post-Hoc Methods without Costly Retraining
- Key Techniques: Latent Feature & Logit Adjustment, Context-aware Pooling, Multimodal Explainability

WORK EXPERIENCE

- Heterogeneous Integration Design Institute** **West Lafayette, IN, USA**
Research Assistant, Elmore ECE Emerging Frontiers Center Jan. 2023 – Present
· Designed an automatic generative designer for multi-band planar antenna
· Engineered an explainable model for the ML-based EM simulation via SHAP values
- Samsung Research America** **Irvine, CA, USA**
Research Scientist Intern May. 2025 – Aug. 2025
· Conducted research on AI-driven Smart TV solutions in collaboration with senior engineers
· Developed an automatic keyboard navigation system using vision-language models (VLMs), specifically optimized for commercial deployment
- Samsung Electronics** **Suwon, Korea**
Engineer, R&D Team, Department of Digital Appliance Aug. 2017 – Aug. 2020
· Developed the thermo-fluid performance of freezing system for brand-new refrigerator
· Analyzed and optimized refrigeration cycle control system to reduce the power usage
- ROK Air Force** **Chungju, Korea**
Lieutenant, Aircraft Maintenance Officer, The 19th Fighter Wings Jun. 2014 – May. 2017
· Managed aircraft line maintenance and administered ground safety department for the military base

AWARDS AND SCHOLARSHIP

Advancing Machine Learning for Scientific Discovery Fellowship <i>Los Alamos National Laboratory</i>	Summer 2026
<ul style="list-style-type: none"> • Awarded to select graduate researchers to develop trustworthy and transparent machine learning methodologies for critical scientific applications. 	
Bilsland Dissertation Fellowship, Purdue University	Spring 2027
<ul style="list-style-type: none"> • Awarded to outstanding Ph.D. candidates to support final dissertation completion. 	
Outstanding Reviewers (Top 5%), CVPR 2025	Jun. 2025
Purdue Graduate Student Government Travel Grant	Nov. 2024
NeurIPS 2024 Scholar Award	Oct. 2024
NeurIPS 2024 Spotlight Paper (Top 2.5%)	Oct. 2024
Future Industry Talent Graduate Scholarship <i>Hyundai Motor Chung Mong-Koo Foundation</i>	Fall 2021 – Spring 2022
National S&T (Science & Technology) Scholarship <i>Korea Student Aid Foundation</i>	Fall 2010

ACADEMIC SERVICE

Conference Reviewing & Program Committees

- Area Chair: IEEE ICASSP (2026)
- Program Committee: AAAI (2024, 2025, 2026), IEEE BigData (2025)
- Reviewer: ICLR (2026), CVPR (2025, 2026), WACV (2026), NeurIPS (2025, 2026), SafeMM-AI Workshop (ICCV 2025), ECCV (2024), KDD (2024, 2026)

Journal Reviewing

- IEEE Journal on Multiscale and Multiphysics Computational Techniques (JMMCT)
- Transactions on Machine Learning Research (TMLR)
- IEEE Transactions on Geoscience and Remote Sensing (TGRS)

University Service

- Grant Review and Allocation Committee, Purdue Graduate Student Government

LEADERSHIP

Mentor, Purdue ECE G-LaMP (Graduate Leadership and Mentorship Program) (2025-2026)

Co-Chair, ICON Student Research Conference, Purdue University (2026)

Vice President, Students Government, Korea Aerospace University (2013)

PRESENTATIONS

1. “Adaptive Logit Adjustment for Debiasing Multimodal Language Models”
Poster, Purdue ECE Open House Symposium Mar. 2025

2. “A Unified Debiasing Approach for Vision-Language Models across Modalities and Tasks” Dec. 2024
Spotlight Poster, Neural Information Processing Systems (NeurIPS 2024)
3. “An Efficient and Unified Debiasing Approach for Vision-Language Models across Modalities and Tasks” Jul. 2024
Lightning Talk, Fast Machine Learning for Science Conference 2024
4. “Explainable Planar Multiband Antenna Designer with Wasserstein Generative Adversarial Network” Jul. 2024
Oral, 2024 IEEE International Symposium on Antennas and Propagation
5. “Boundary Improvement Module for Binary Semantic Segmentation in Remote Sensing” Jun. 2021
Oral, Korean Society for Industrial and Applied Mathematics (KSIAM)
6. “Segmentation model for tracking building in satellite imagery” Nov. 2020
Poster, Korean Society for Industrial and Applied Mathematics (KSIAM)

TEACHING EXPERIENCE

- ECE 695 Machine Learning in Bioinformatics and Healthcare** Purdue University, West Lafayette, IN
Guest Lecture Fall 2025
- Designed and delivered a lecture on “Post-Training and Inference-Time Approaches for ML in Healthcare,” introducing advanced efficiency techniques to graduate students.
- ECE 570 Artificial Intelligence** Purdue University, West Lafayette, IN
Teaching Assistant, Electrical & Computer Engineering Fall 2024, Spring 2025, Spring 2026
- Held office hours and led student projects across three course sections, serving a total of 804 students
- Computer Literacy & Programming (Python)** Seoul National University, Seoul, Korea
Instructor, Language Education Institute Mar. 2021 – Jul. 2022
- Designed and delivered a Python programming course for beginner-level students for three semesters
- L0444: Basic Computing (Python)** Seoul National University, Seoul, Korea
Teaching Assistant, Faculty of Liberal Education Spring 2021, Spring 2022
- Led weekly lab sessions for 50+ students each semester
